

## PROJECT: GROUP POLICY MANAGEMENT

- 1- Give me the different parts of the GPO and what are they for?
- 2- Create a policy under the DC that prevents installation of a removable devices and make sure the policy is applied at the computer level.
- 3- Create a policy for the maximum passwd age for 3 months and it has to be applied at the DC under the computer configuration.
- 4- Create a policy to set the minimum passwd length at 8 characters.
- 5- Create a policy that do not display install updates while starting your server.
